

Auditor's Opinion

It is our view that, although the Foundation is within its second year of operations, it has performed exceedingly well and shown resilience especially in light of the recent challenges surrounding the pandemic. The team being relatively new (but growing) is highly motivated and dedicated. They are working hard individually and collectively, in exploring more scalable methods in the way the existing processes and systems are currently being run.

The auditor commends the processes, governance, case management, business culture and overall teamwork. We are of the belief that the Foundation is operating in the best interest of the donors and those eligible, by being a trustworthy representative and an honest Zakat administrator & distributor.

Rating

Overall Rating: 76/100 - EXCELLENT

Fail: 1-32

Pass: 33-66

Excellent: 67-100
